Saving and Investing

"Investing" your money is a serious matter—not to be done in a hurry. Think twice and ask advice before investing. Be guided by experience—preferably your banker's.

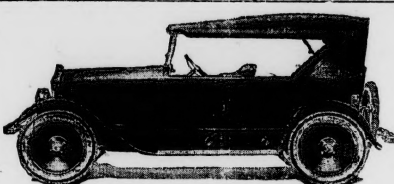

Successful investors always keep in close touch with their bank.

DIDSBURY DROPS TWO GAMES

Olds made it two straight from Didsbury Tuesday night in a game ending 5 to 2 in their favor. Didsbury scored two in the first innings off Campbell. Olds scored one in the second and one in the fourth tying the score. From then to the seventh it was a real battle. Olds scored three in the seventh. The feature of the game was a wonderful catch by Center fielder Dawson of Olds hit one that looked good for a home run. Wilkinson on second

Dawson Made A Wonderful Catch

for Olds made a beautiful catch in the fifth. The game was greatly enlivened when Stadler took exception to one of Davey's, the referee's decision and the two argued it out with their fists much to the delight of the crowd.

Batteries: Lids—Campbell, Hazen and Hinton.
Didsbury—Keith and Clemens.

Cecil Stader Argued With The Referee

A delegation from the Olds Board of Trade, and citizens to the number of about twenty, attended a meeting of the Didsbury Council and citizens last week to get some information regarding the plausibility of supplying the two towns with electric light from a central station, Didsbury. They seemed only to want the information however and did not enter into any discussion as to its feasibility. This question is one that has rather grown stale but now as it has been brought up so often, Constable it seemed has dropped the notion altogether as their figure it would not pay owing to the large number of individual plants down there.

It would most certainly be an ideal arrangement to combine the three towns in this matter and give a continuous service. However it seems that the other towns are divided amongst themselves as it were on the question and it very much appears to be a bubble that will break at any time.

One of our silent policemen seems to have met up with an accident. His head has been knocked off and is resting at his feet.

The Canadian Rockies cover an area greater than that of France, Belgium and Switzerland combined.

DIDSBURY OPERA HOUSE

Dear Friend—There are only three or four Cecil B. DeMille pictures a year, and you know they are the high points of the season. On July 13th and 14th we are showing Mr. DeMille's latest production, "Manslaughter," from the story by Alice Duer Miller, Francis Macpherson wrote the scenario.

The cast is a knockout. Thomas Meighan, Leatrice Joy and Lois Wilson head it. It is probably the most daring and human story Mr. DeMille has ever visualized on the screen. And it's just looking in splendid color.

Grown-ups, baby, luxury, thrills in pretension and drama as intense as anything you ever saw. Shows how the barbarian invasion of Rome, and these are the greatest in motion pictures the screen has ever seen.

"Manslaughter" is a tale of the mad madmen are with its prodigious waste of life. It is the masterpiece of the world's master producer.

Even if you only go to see motion pictures once a year—this is the one you must see. It's a Paramount picture.

Yours sincerely,
H. R. Alkubend,
Manager.

WORLD HAPPENINGS BRIEFLY TOLD

Prince Edward Island provincial elections will be held on July 26, according to a recent announcement.

The Marquis de MacMahon, prominent in the Franco-American Society and also an ardent Royalist, died recently in Paris. He was born in 1880.

British subsidized airplanes carried 11,150 passengers last year. Not one person was killed, and only one was injured.

Mr. Justice Donald MacLean, of Saskatoon, and Mayor (Edward) McConnell, of Saskatoon, were elected to two vacancies on the University of Saskatchewan senate.

The shipment of cattle purchased in behalf of His Majesty the King, were gathered from Canadian experimental farms from as far west as Lethbridge, Alberta, and as far east as Kentville, Nova Scotia.

Twenty-one women students passed the recent examinations for the first class bar. Five of them passed their final examinations, thus bringing the total number of women now qualified as barristers up to 27.

The Zantoff Government in Bulgaria has issued a manifesto in which it "solemnly declares it is ready to execute locally the Versailles Treaty stipulations with respect to the dignity of the great powers."

Lyons Restaurant, the biggest in the world, which is located in Piccadilly, London, has been opened. Although two of its five floors were closed 2,600 persons were served simultaneously and 30,000 were served throughout the day.

Eight captives, the last of the foreigners kidnapped by Chinese bandits who held up the Shanghai-Peking express near Suichow, May 6, and held at the Pootung mountain headquarters of the outlaws, since that time were released June 12.

It was announced at the annual meeting of the Royal Mail Packet Company that it is proposed to extend and strengthen the tri-weekly service between England and Vancouver, via the Panama Canal. The company's policy will be to speed and develop all inter-Imperial traffic in preference to foreign routes.

RED PIMPLES ON FACE 3 YEARS

Itched and Burned. Lost Sleep, Cuticura Heals.

"My face was affected with pimples for about three years. They were hard and red, and itched and scaled over. The pimples itched and burned causing me to scratch and irritate them, and I lost many a night's sleep on account of the irritation."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample which helped me so I purchased more, and after using four cakes of Soap with the Ointment, I was healed." (Signed) Miss Martha Theusch, R. 2, Box 45, Vining, Minn.

Crop Prospects Never Better

All Indications Point to a Bumper Crop This Year

Prospects for even a bigger crop in Western Canada than the bumper one last year were never better so far. Recent rains have saturated every foot of the prairie provinces, and no area is without an ample supply of moisture. Warm weather since the rains falls have set vegetation ahead with a jump. For miles on end, as far as the eye can reach, the wheat fields show an unending carpet of green, while in the cities and towns trees by the roadways show a riot of growth; on local hills are in bloom, and in backyards fruits and vegetables are flourishing. Several prominent farmers who never yield to undue optimism, and who have known Western Canada intimately for twenty years, express the general opinion in saying that prospects, from a crop standpoint, were never better at this season on the prairie.

On the Marriage Day

Romance usually comes, and history begins, and sure enough begins to go when "Pittman" is applied. It takes out corns, roots, branches, stems—no trace of a single one left after Pittman's. Pittman's Corn Excortor has done its work. 25¢ at all dealers. Refuse a substitute.

LOW SPIRITED AND DEPRESSED

A Condition Due to Poor Blood and Weak Nerves

Nearly all women and most men suffer at times from fits of depression and low spirits, from which they are unable to free themselves. They can not attend to their duties satisfactorily and are unable to get any pleasure out of life. People who suffer in this way soon lose their energy, vigor and body. They lack vitality because their blood is poor and ill-nourished, and their nerves are starved in consequence. The only way to obtain new health is by building up the blood with Dr. Williams' Pink Pills. The new rich blood made by these pills will carry renewed health and energy to every part of the body. Your appetite will improve, your spirits brighten and you will be endowed with fresh energy and a new joy in living. Mrs. G. Reid, Naperville, Ont., tells of the benefit she found through the use of Dr. Williams' Pink Pills. She says: "I have used Dr. Williams' Pink Pills on different occasions and cannot emphasize too strongly the benefits derived from them. I was growing nervous, my complexion was becoming sallow and my eyes dull and listless. My vitality was poor and I did not sleep well. I became dependent, losing interest in my work, which seemed to me so easily. I began using Dr. Williams' Pink Pills and after taking six boxes I began to enjoy life again and looked much brighter and felt happier. My spirits improved, I gained in weight and could sleep without any nervous wakefulness during the night. I also used these pills while nursing my baby and found them a wonderful help both for myself and for making my baby better nurtured. For these reasons I gladly recommend them to anyone who needs a tonic for the rebuilding of strength and energy."

You can get these Pills from any medicine dealer or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockton, Ont.

Record For Phones

According to statistics recently compiled, the city of Calgary, Alberta, with a population of 61,000, has more telephones in proportion to its population than any other community on the American continent. There is one phone in every 110 persons. The telephones in Calgary are of the automatic type.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Hollister's Corn Remover.

Securing Domestic Help from Overseas

The Canadian Pacific Railway has added to its London, England, offices, a Woman's Department, where applicants for bona fide domestics are received and investigated by a travelling woman inspector, with long experience in selecting domestic help, who looks into references and requirements on both sides. Accepted applicants are being sent to Canada, from time to time, in personally conducted parties.

Saskatchewan Corn Show

The formation of the Saskatchewan Corn Growers' Association has excited a good deal of interest, and a very substantial list of prizes has been offered for the first provincial corn show at Maple Creek next November.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by concentrating the inflammation. A trial will convince any who doubt its power.

The first timepieces were made long ago in your vest. The same thing has happened to gramophones. A Henderson portable has invented a gramophone no larger than a watch, and his slogan is, "Carry your orchestra in your vest pocket." The invention is described as a perfect instrument, capable of producing jazz, waltzes, and one-step. "The Miki-phones" as it has been christened, winds like a watch and has a speed regulator. There is room inside for ten plates, giving a repertoire of twenty selections. In the other vest pocket you can carry enough music for an all-night session. By placing the instrument on a champagne glass the sound is amplified sufficiently for an ordinary-sized bathroom.

Mrs. Connor Declares Stomach Troubles Was So Bad She Could Hardly Eat At All

"I I hadn't gotten Tangle when I did I believe I would have had to go to a hospital," declared Mrs. Anna Connor, 225 Heron St., Hamilton, Ont., recently.

"My stomach was so disordered that everything I ate made me deathly sick, and caused pains in the pit of my stomach that nearly drove me distracted. Often the agony was so acute I couldn't help crying, and for two or three days at a time I wouldn't eat a morsel of food. I was as nervous as a wild cat, unable to bear the want of sleep, and often wonder now how I lasted through it all."

"The splendid results my husband got from Tangle about a year ago caused me to try it, and the treatment ended my suffering in a few weeks time, and gave me a new lease on health. I don't believe there's a healthier woman in Hamilton than I am now, and I can't praise Tangle enough."

WEDNESDAY, JULY 11th

THE SECRE COURSE IS SOUND
POLICY

The following editorial from the
Canadian Finance sets forth in a
very clear manner the stand taken
by Premiers Greenfield and Dums-
y on the recent wheat board
question and is worth while reading.
Mr. Woods voluntary help will not
function this year as he had hoped
and conditions next year will larg-
ely influence this project.

Courage and good judgment were
displayed by the Premiers of Sask.
atchewan and Alberta in their de-
cision, after careful deliberation
against the Wheat Board. Along
with the bright prospects for the
crop of 1928, which is still a long
way from harvest, the finding of the
two Premiers should help to streng-
then confidence all round, in agri-
culture, trade and finance for all
Canada. The grain trade, both pro-
ducers and dealers may now proceed
to make contracts at will, and the
trade and industry of the country
may prepare for what looks like a
good season. It is quite evident the
two men in the highly responsible
positions realized somewhat the
heavy financial risks which would
have to be taken by a wheat board
and they preferred to be on the safe
side than to risk the security of
their local communities for an
apparent political advantage. It is
important that their action shall be
noted and appreciated by their
countrymen. They had the un-
doubted warrant from the legisla-
tures and the people for proceeding
and doubtless could have got men
to take appointment if they, the
Premiers, had been prepared to car-
ry the real responsibility for the
Board night and day. They reject-
ed the opportunity and speculative
invitation. The experience of vet-
eran grain exporters last season was
such as to warn them against play-
ing the market, and, failing to get
men of undoubted capacity, they de-
cided to stay out.

Assuming that peaceful conditions
shall continue in the world for the
coming year, as all good men de-
sire, they hope they will, the prospect
for any Wheat Board being able to
do great things for the producer are
not bright. If the peace should be
broken and wheat prices rise, as is
usual under unsettled conditions,
the market will reflect the change
and, as happened during the Great
War prior to government control,
the producers shared in the higher
prices rather better than in the later
years of the period under govern-
ment control.

ARE GIVEN EXTENSION

Some thirty civil servants on the
staff of the provincial government
departments due for superannuation
under the new act, have been given
an extension of one year, in ac-
cordance with authority extended to
the civil service commission under
the new act. Where employees are
still able to carry on efficiently, the
commission has power to grant this
extension.

Here and There

In 1922 Canada produced minerals
estimated to be worth \$180,622,000,
an increase of precisely \$6,000,000
over the previous year.

A British silk manufacturing firm
has decided to establish a large
plant near Quebec city for the
manufacture of artificial silk yarn.

A train nearly a mile long and
drawn by a single locomotive re-
cently carried 165,000 bushels of
grain over the Canadian Pacific
western lines.

Almost sixteen and a half million
bushels of wheat were exported
from the port of Vancouver during
the period September 1, 1922, to
May 31 of the present year, accord-
ing to figures issued by the Mer-
chants Exchange.

Among the large number of un-
accompanied women on the last
westward voyages of the Canadian
Pacific liners "Montclair" and "Me-
lita" were twenty-three who were
coming to Canada to be married in
various parts of the Dominion.

An official in-charge of the cattle
shipments from the Port of Mon-
treal recently stated that nearly 40,
000 head of store cattle would be
shipped from the port this year. It
declared the rush seasons would be
the months of August, September
and October.

On her last westward voyage the
Canadian Pacific liner "Empress of
Canada" established a new trans-
Pacific record of 8 days, 10 hours
and 45 minutes from Yokohama to
Vancouver. The previous record, 8
days, 18 hours and 31 minutes, had
been held since 1914 by the "Em-
press of Russia" of the same line.

If public deposits in banks and
loan companies can be taken as a
fair indication, the Canadian is the
world's richest man, according to a
statement made by F. A. Hatch, re-
tiring president of the Ontario di-

turers' Association. These deposits
amount to more than two billion dol-
lars, or \$250 per capita.

According to a report of the Do-
minion Bureau of Statistics, 62,278,
170 tons of railway freight origi-
nated in Canada in 1922, and 26,831,
631 was received from foreign con-
nections making a total of 89,109,
800 outgoing. Also 62,548,278 tons
terminated in Canada and 25,439,906
were delivered to foreign connec-
tions, making a total of 87,987,484
tons.

That Canada was gradually be-
coming more and more of an indus-
trial country, and that Canadians
themselves were not truly aware of
the fact, was the opinion expressed
before the Winnipeg Rotary Club by
Prof. R. C. Wallace, of the Uni-
versity of Manitoba. He stated that
during the past twenty-five years
the population of Canada had in-
creased 80 per cent., the railway
mileage 120 per cent., while the in-
dustrial life of the country increased
700 per cent.

St. Hyacinthe, Que., has the dis-
tinction of having developed the
world's largest organ plant, and by
recent invention and improvements
evolved an instrument which re-
ceives praise from the world's first
artist. An organ recently shipped
by Casavant Freres of that place
to Paris, France, is absolutely the
first to leave a Canadian continent
for Europe, the movement having
hitherto been in the opposite
direction, and was so shipped be-
cause the purchaser desired the fin-
est and most up-to-date instrument
that could be secured.

NATURAL RESOURCES

Premier MacKenzie King has called a conference on the question of the natural resources for the prairie provinces, at Ottawa on August 6th, when Premier Greenfield and Attorney General Brodeur of Alberta will be present.

Vancouver is to have direct comparative trade relations with Spain. A vice-consulate has been established there which embraces the prairie provinces and is the only one west of Montreal.

During the year 1922 boring operations for the discovery of oil and gas in Alberta were continued to the extent of 220,000 feet, resulting in the discovery and development of a field with an output of 180,000,000 feet per day.

Despite reports of adverse conditions in the prairie provinces, Saskatchewan officials estimate that after paying all expenses the farmers of that province last year had \$100,000,000 in net proceeds to apply on debt.

CONFERENCE ON COAL RATES

A conference on rates for coal to Ontario points will be held in Edmonton on July 16th, when Mr. Henry Thornton, President of the National Railway, will meet representatives of the operators and the provincial government, and likely also representatives of the federal government and the Canadian Pacific Railway.

SEED GRAIN INSPECTION

The seed branch of the dominion government will in future take over the field inspection work for the registered seed growers' production, which work has hitherto been done by the provincial department of agriculture and the university. Farmers will be charged for this inspection at one-half the actual cost. There are now, it is calculated, about 100 growers of registered seed in the province, which is a great increase in the past two years.

FLOODS CAUSE ROAD TROUBLE

The provincial public works department is flushing its hands clean of the trouble caused by heavy rains and floods in different parts of the province. The course of the Old Man River at Calgary has been changed by the floods, and it has been found necessary to change the location of the bridge on the river. Similar trouble is now being experienced on the Highwood River. The heavy rains have held up the road program of the public works department to a considerable extent, it being impossible to do much work under the conditions existing.

CONVENTION IN ALBERTA

The Elks of Canada and Newfoundland have again decided to hold their annual convention in Alberta and they will meet at Edmonton in 1921. This year they met at Banff.

WESTCOTT SPORTS, JULY 18th.

Bunglow camps, such as are operated in the Canadian Rockies, are to be built in the French River, Nipigon Bay and Lake of the Woods districts of Ontario by the Canadian Pacific Railway. Low cost of construction and maintenance will enable the company to offer lower rates than standard hotels. The first three will be ready for occupation by July 1st.

According to a recent rearrangement of ports of call of the Orient, the Canadian Pacific Steamships Limited, by omitting Manila as a Hong Kong, will bring the latter port four days nearer to Canada, the United States and Europe. This makes possible a through service from London, England, via Canadian Pacific Atlantic Steamships and Quebec and rail to Vancouver and via Canadian Pacific Steamships to Hong Kong under 28 days.

During the year 1922 the Canadian Pacific Railway handled a total of 8,435,325 pieces of baggage as compared with 1,742,074 for the previous year. Of this amount 8,145,248 pieces were passengers' baggage which compared with 8,185,000 for the previous year. Twelve months 5,007 bicycles were handled, 19,007 more travelled as baggage and 23,183 baby carriages. Very much more was also a considerable increase in the movement of milk. In 1922 the Company moved 1,000,000 cans as against 1,014,701 in 1921, and it is remarkable that most of this increase was in the three provinces, Manitoba, Saskatchewan and Alberta, which is an excellent indication of the further development of mixed farming in those provinces.

One of the best examples of a town growing an "over night" is that of Climax, the end of steel on the Canadian Pacific branch of the Canadian Pacific Railway. All that there was on the quarter section on February 15th, the day on which the site of the new town was finally settled, was a lumberer's shanty and a small barn. When the steel was laid in Climax on March 15th there was a restaurant, one roomy house, over a score of dwellings, two bathhouses, a drug store, a hardware store, a big general store, pool room and barber shop. The new town was situated in four large flat warehouses, in which nearly 100,000 bushels of grain were stored, and a butcher house. The new town is situated in Lone Tree R.M. number 18, about 10 miles south of Shaunavon.

EMPRESS OF CANADA ESTABLISHES NEW RECORD

EMPRESS OF CANADA - QUEEN OF THE PACIFIC

FOLLOWING the announcement that the Canadian Pacific liner "Empress of Canada" has been chosen to show the world to 100 tourists in a 100-day tour of the world cruise, leaving New York in January next, comes the news that this majestic vessel has added to her laurels by establishing a new trans-Pacific record. On her last eastward voyage, the "Empress of Canada" made the run from Yokohama to Vancouver in 8 days, 10 hours and 55 minutes, nearly eight hours less than the previous record which was established in 1914, and held since by the "Empress of Russia," a sister ship. The average speed of the "Canada" on her record trip was 21.6 knots per hour.

As with all Canadian Pacific liners the speed attained was no more than was compatible with safety in the opinion of the Commander of the vessel, and comfort for the passengers.

The "Empress of Canada" with a gross tonnage of 22,000 tons has accommodated for 1,750 passengers of all classes and a crew of 847. Of her large space

a large portion has been fitted for the carriage of all and refrigerated cargo.

The first class accommodation is indeed of the premier class, including luxurious suites with private bathrooms in addition to the single, double and family rooms. The staterooms are of the most modern type, a telephone system between all rooms and offices affording an additional convenience to the passengers.

There is even a well appointed swimming pool on board with a gymnasium and a large lounge provides ample room for concerts and the moving pictures which are a special feature of the Canadian Pacific service. It was remembered when designing the interior of the Empress of Canada that she was for semi-tropical service and the rooms are large and airy, and the last word in marine architecture.

Captain Halley, R.N.R., the ship's Captain is well known on both the Atlantic and Pacific, having joined the Canadian Pacific as Junior officer on the "Empress of Japan" in 1900, and he is the recipient of many congratulatory messages on his distinction as Commander of the fastest and best appointed ship on the Pacific.

Canada And Its Immigrants

The tide of immigration to Canada is rising. It will continue to rise in response to the desire of people in the British Isles and on the continent of Europe to emigrate to a land where they can find those opportunities for self-advancement for themselves and children, particularly their children, which are at present denied to them, and also in response to the increasing recognition by the people of Canada that one of the Dominion's paramount needs is increased population, which recognition is slowly but surely finding acceptance in the adoption of a more up-to-date and vigorous policy of immigration by the Ottawa Government. A further incentive to increased immigration is found in the policy of the British Government encouraging and promoting immigration to the overseas Dominions of the Empire.

It is not sufficient for Canada and its future merely to receive thousands of new settlers. These people of diverse races and tongues must not only be received but made welcome; they must for their own future and Canada's welfare and national stability and progress be assimilated as rapidly and completely as possible into a real and permanent Canadian citizenship.

In the past, unfortunately, such assimilation in the minds of many great Canadians has been conceived in a very narrow way. It has meant little more than the abandonment by new comers of their native tongue, customs, and native dress and the adoption of the English language, Canadian dress and customs. While the adoption of the language, customs, dress and manner of Canada is desirable and in their own interests, necessary for all immigrants, it is not necessary, nor possibly even desirable, that they should wholly abandon and seek to forget the language and traditions of the lands from which they come.

It is of the first importance, however, that all people of foreign extraction should be made heartily welcome in Canada by our Anglo-Saxons. It is our duty to understand these newcomers. Particularly, we must abandon the attitude of looking down upon them with suspicion, even distrust. They are no Bohunks, nor dirty Galicians, nor narrow, bigoted Monnons; they are people; they are human, with spiritual and intellectual capacities. Many of the very habits and characteristics to which Anglo-Saxons sometimes so strenuously object are the outcome of deep religious convictions—something no man should despise—or the result of centuries of inherited ideas which cannot be uprooted in a few years. Even if such uprooting was possible there would be grave danger of something less desirable and more dangerous taking the place of lost convictions and ideals.

These diverse peoples have a distinct contribution to make to the Canada of the future that is now in the making, a contribution quite apart from the visible, practical and economic one of tilling the soil, raising cattle, building railways, roads, or being hewers of wood and drawers of water in Canada. They bring to this new country habits of thrift and a willingness to work, and work hard even to the extent of dowdier drudgery, which most Anglo-Saxons have yet to learn. These people are real pioneers. They have not despised the land covered with bush to be cleared; no distance to market has been too great for them to travel; no season too heavy to lift. They live frugally, clear their own land and their crops to distant market towns in zero weather. In a word, they are nation builders. They are not living for pleasure, but for future generations, and where you see their pioneer shacks, you also see bits of children.

These people, too, bring with them a burning love of liberty. They know from centuries of bitter experience what tyranny and oppression mean. They understand the horrors of war. True, there is danger they may misinterpret Canadian liberty for licence, but it is for the Anglo-Saxon to endeavor to understand and sympathetically teach and direct.

The Scandinavians bring to us the sturdy hardiness and rugged upstanding characters developed about the fjords in the land of the midnight sun, men of the type of Steffanson, the Arctic explorer, who is doing so much for the Canada of the future. The Polish people bring from the land of Paderewski an inherent love of music. Czech-Slovakia adds to men and women thrilled with the inspiration derived from Huss and other national patriots. The Hungarian is still influenced by their great hero Kossuth.

These people bring a new strain into our Canadian life. They have a real love for the land; they love the smell of the rich soil; they love the beauty of the plowed field; they enjoy the toll in the fields. They bring to Canada things we lack. We have invited them to come; we need their contribution to the upbuilding of our Dominion. Let us, therefore, welcome them, strive mightily to understand them, encourage and assist them, have patience with them, because time will work wonders, and above all, let us not look down upon them because their ways are not altogether our ways. We owe them something, and it will be repaid in full measure if we exercise a reasonable patience and understanding, Canadian neighborliness and Christian charity.

Fate is what a man calls it when he's a selfish individual who lives for gets into trouble for doing what he himself alone is usually the only person in the world to mourn his demise should it do.

Canada's Exports

Great Increases Shown in All Products During Year

Canada's automobile exports in 1933 were but \$100,000, and in 1934 they were \$5,000,000. Pulp and paper exports jumped from 351,000 tons in 1933 to 800,000 tons in 1934; the rubber exports increased from \$22,000 in 1933 to \$1,000,000 in 1934; livestock increased from \$62,618 in 1933 to \$27,618 in 1934. Chemical exports increased in value in the same period to \$9,250,000. Manufacturing exports have rapidly climbed until they represent 51 per cent. of the export trade of Canada in the last year.

Excellent Source of Revenue

Charitable Organizations Can Make Money Collecting Old Newspapers

Old newspapers from which the ink has been removed by processes lately discovered make a good grade of book paper. In recent months manufacturers have paid as much as thirty dollars a ton for them, and they say that the supply is inadequate. Charities that organize to collect old newspapers find they have an excellent source of revenue. Incidentally they help the cause of forestry. It is said that six tons of waste paper saves an acre of forest.

Production of Chemicals

During the year 1932 the value of Canada's production of chemicals and allied products amounted to over \$100,000,000 of which some \$25,000,000 worth were exported. Labor statistics covering the same period show that employment in the chemical industries increased by 5 per cent., while the general tendency of chemical production has been toward increased production and stabilization.

Saskatchewan Honey

Estimated that Twelve Tons Were Produced Last Year

A substantial increase in the production of honey in Saskatchewan is anticipated this year, according to officials of the Department of Agriculture. At present there are nearly 100 beekeepers in Saskatchewan. Fourteen of them produced a total of 9,832 pounds of honey last year, an average yield of 688 pounds for each apiary. The remaining apiaries yielded an average of about 200 pounds each, and it is estimated the 1932 production of honey in Saskatchewan was approximately 12 tons.

Friendly Termination Of The Dispute Between Britain And Russia

London.—A brief note from the British Government delivered to M. Krasin, the Russian Soviet representative, brings to an end the long correspondence beginning with Lord Curzon's ultimatum, and terminates the dispute between Great Britain and Russia, which at one time seriously threatened a rupture of the trade agreement between the two countries.

That this has been avoided is considered as largely due to M. Krasin's diplomatic tact. That the British Government now considers the incident closed is seen in the fact that it issued to Parliament an official record of the whole correspondence.

Russia yielded on many points, including withdrawal of the offensive Weinstein notes, granting compensation to the red traders in the Far East, and allowing coast and permitting fishing rights within the 12 mile limit. On the question of Soviet propaganda, a compromise has been reached.

The wording of the note shows that Russia had agreed to a formal course of diplomatic movement, to the transfer from Kabul, Afghanistan, to another point, of M. Rashidnikov, against whom, according to the note, "the main charges have been made," and to insure that M. Shanshin, at Tehran, shall observe the propaganda agreement in letter and spirit.

The note further gives the important understanding that Great Britain and her dominions, colonies and protectorates shall not assist in any hostile designs against the Soviet Government or the republics associated with it which may be entertained by Russian empires.

Organize Union of Churches

New Church May Have a Total Membership of 2,598,000

Toronto.—The organic union of the Presbyterian, Methodist and Congregational Churches under the proposal submitted by the Presbyterian General Assembly, will create a very powerful ecclesiastical organization from a numerical standpoint. The census of 1921 gives the numbers of persons belonging to the churches which will come under the union plan as follows:

Methodists, 1,158,734; Presbyterians, 1,468,812; Congregational, 30,574; total, 2,658,120, or 25.6 of the population of Canada. Allowance must, of course, be made for the large body of absentees breaking away and forming another church.

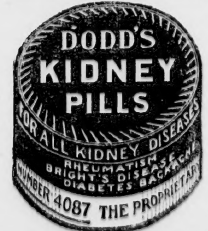

The leading Christian denominations outside of the union are: Roman Catholics, 2,383,433; Anglicans, 1,367,959; Baptists, 421,733; Lutherans, 275,181; and adherents of the Greek Church, 169,822.

Prince Of Wales May Visit Canada Again

Report Says He Will Tour All British Dominions

New York.—The Prince of Wales, now the British lioness in a campaign to arouse interest in next year's British Empire Exposition, it was said by W. C. Cleveland, President of the British Club of London, who addressed the New York Advertising Club. He said the Prince was making daily speeches before trade groups in the interest of the exposition. This time, if the Prince comes, his visit to the Dominions will be for the purpose of boosting the trade exposition, unlike his other tours of the last three years, when his missions were social and political. Canada will be the first of the Dominions which the Prince will visit, it is stated. Mr. Cleveland gave no hint as to when the Prince would leave England or what his itinerary would be, but from the fact that the exposition is to be opened in the spring it is assumed that the tour will probably start within a few months.

Trade With Australia

Commonwealth May Accept Canada's Offer of Reciprocity

Ottawa.—Australia is about to accept the Canadian offer of reciprocity. The Minister of Trade and Commerce, J. A. Robb, was officially advised by cable that at the opening of the Australian Parliament the speech from the throne introduced legislation accepting the Canadian offer.

The proposal referred to is that Canada extend to Australia the British preferential tariff in exchange for a similar preference to Canadian goods under the Commonwealth tariff. As Canada is considerably more advanced in an industrial sense than the sister dominion, it is believed that with the proposed treaty concluded, a very substantial development in trade will result.

HUSBAND DIDN'T DARE LEAVE HER ALONE HEART WAS SO BAD

Those feelings of fatality, those dizzy spells, the allgone sinking sensations which come on from time to time, indicate a weakened condition of the heart and a disordered state of the nerves.

MILBURN'S HEART AND NERVE PILLS

have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system. Mrs. C. Vanhorn, Eccville, Alberta, writes: "About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just faint away, and it would sometimes be an hour before they could bring me back to life. Someone told me about Milburn's Heart and Nerve Pills. I got three boxes; I took them and felt much better, so continued all winter, and now I never feel any such faintness. I surely do appreciate the good they have done for me."

Fear Bulgarian

Peasant Revolt

May Rally to Call Issued by Deposed Leaders

London.—Great anxiety is entertained in Allied quarters over the course of events in Bulgaria. Fear is expressed that the peasantry, which forms the backbone of the country, will rally to the call already issued by its deposed leaders, some of whom are still at large, and attempt a counter-revolution.

In the meantime the new regime at Sofia is rapidly displacing numbers of its diplomatic corps abroad who were appointed by Stamboulisky.

Forest Fires Destroy New Yorkers' Property

Value of Fishing Lodges in New Brunswick Over \$100,000

Fredericton, N.B.—The sporting lodges owned by the Acadia Salmon Club, a fishing club made up of wealthy New Yorkers owning valuable fishing privileges and elaborate camps along the New Brunswick-Quebec international boundary, have been destroyed by forest fires. The buildings are valued at more than one hundred thousand dollars.

The fire cut into New Brunswick territory for miles up the Restigouche River from the mouth of the Upper St. John.

A reply has been received by Col. Leggie, Deputy Minister of Lands and Mines, in a request forwarded to Ottawa for a detachment of Mounted Police to patrol the northern fire areas of the province, stating that the request could not be complied with owing to a lack of men.

Reports state the forest fire took miles out of Kedgewick, which had assumed serious proportions, was apparently incendiary.

Moose Factory In Ontario Campaign

First Vote For Citizens In Hudson's Bay Post

Cobalt, Ont.—The citizens at Moose Factory, the far outlying post of the Hudson's Bay Co., will have an opportunity to cast their ballots at the coming Ontario elections for the first time in the history of the province.

The sister post on James Bay, situated at the mouth of the Albany River, must wait another term before enjoying a similar privilege.

Judge Canon, of Cochrane, flew by hydroplane to the shores of James Bay, and while successful in making arrangements at Moose Factory, was unable to go to Albany post because James Bay was filled with ice.

Grave Conditions In China

Washington Informed Lives of Americans Are in Danger

Shanghai.—Conditions in China were termed "the worst since the Boxer outbreak" in a statement in which the American Association of China and the American Chamber of Commerce of Shanghai united.

The organizations agreed that American lives and liberty are endangered and their "property and business are being destroyed by lack of strong action."

A cable of protest was sent to the Secretary of State in Washington.

Canadians Entertained in Paris

Paris.—E. W. Beatty, President of the Canadian Pacific Railway Company; Hon. Smoot White, Senator of Canada; and Sir George McLaren Brown, European General Manager of the Canadian Pacific Railway, were entertained at luncheon in Paris by the Union Inter-Allied, an exclusive club.

Federated Women's Institutes

Important Matters Discussed at Biennial Convention

Fredericton, N.B.—With representatives from every province in Canada, the third biennial convention of the Federated Women's Institutes of Canada opened here, Mrs. W. Tobin, of Orillia, Ont., the National President, presiding.

Miss Annie Playfair, of Hartney, Man., was the principal speaker of the opening session, her topic being "Women's Institutes from a National Viewpoint."

Discussion on the address of Miss Playfair was led by Miss Annie Stuart, of Grand Pre, who thought that some of the money spent on salaries concerning fruit sales, especially in the home and children.

Mrs. MacLachlan, Victoria, urged that a definite problem be planned before going to Ottawa, and appealed to all to use their influence in keeping British Columbia a white man's country.

"We are the front line trenches against colonial domination," she said. "At present every ninth child registered in British Columbia is of Oriental birth, and all are not registered."

The Japanese say that with the loss of the vote they will put the white race where they belong.

"Everything depends on Ottawa," she continued, "and we need the help of all Canada." In conclusion she urged "buy at home" industrial campaigns.

Mrs. J. F. Filer, of Calgary, publicity secretary, reviewed the national publicity work of the organization, stating that every province in Canada, with the exception of Prince Edward Island, carried on regular department of news in various provincial papers, while Nova Scotia Institutes published a quarterly periodical of their own. As an example of how far and wide women's Institute news is published, she cited the Igloo River Record, one of the farthest north papers in Canada, carrying five stories of women's Institute meetings in various parts of the district which it serves in one of its weekly issues. The policy was to get news published wherever and when ever it could be done.

Mention Hon. Frank Oliver for Senate

Ottawa.—Hon. Frank Oliver, former Minister of the Interior, is being backed by many of his political friends and others for appointment to the Alberta seat vacant through the death of the late Senator Amable J. Forget. Mr. Oliver has been out of public life since 1917, when he was defeated by General Griestbach, who meanwhile has been appointed to the Senate.

Saskatchewan Wheat For Argentina

Ottawa.—A shipment of 500 bushels of Canadian registered Marquis wheat, produced by members of the Canadian Seed Growers' Association in Saskatchewan, is being made to Buenos Aires, for sowing in Argentina. P. Stewart, Secretary of the Association, expressed the opinion that the performance of this seed in Argentina will lead to increased purchases from Canada.

Ottawa.—The Liberals in Canada discussed the sessional program and the date of prorogation. The belief is now prevalent in Liberal circles that it will be possible for Parliament to prorogue by the end of this month. This is understood to provide for the passage of the Bank Act, but the passage of a Redistribution Bill is regarded as doubtful. It is decided to go ahead with redistribution this session it is expected it will be necessary to sit some time into July.

As to the banking bill the hope is expressed in Liberal quarters that there will not be prolonged opposition to it in the house. It is expected that it will be reported from the committee this week.

In addition to the sessional program, the caucus is also understood to have before it Hon. H. S. Beland's proposals for courts of appeal for returned soldiers under the Pensions Act.

The minister, it is stated, outlined a plan for a central court of appeal at Ottawa, with boards of hearing in other parts of the country. The Court of Appeal is to be composed of a lawyer, a doctor and a business man, while two of the members are to be required to be ex-service men.

The caucus also considered, it was reported, certain proposals for legislation on forest protection to be introduced this session.

Says Australia Has Great Possibilities

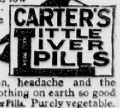

Development Barely Begun, Says Prime Minister of New South Wales

Ottawa.—The value of co-operation between the units of the British Empire, both for commercial expansion and the stability of the empire, was the keynote of an address by Sir George W. Fuller, Prime Minister of New South Wales, speaking before the Canadian Club. Sir George spoke of Australia's great possibilities, the development of which had been barely begun. He asked his hearers to come to believe that Australia was largely undeveloped. It was immensely fertile, and among other things of the future, Australia had the possibilities of an immense wheat production.

Great Britain, he said, had developed in recent years, Sir George said that it was hoped to make her still greater in the near future. To that end he had been to the Old Country and he was returning with a contract signed in Great Britain by which 6,000 British were to be settled on 6,000 farms in New South Wales.

RUGBY C. U. C.

On Tuesday evening some of the members of the C. U. C. journeyed to Mr. Robert Blaine's to give him a welcome chivaree. The noise of cow bells, discs, tin cans, etc., rang throughout the air for about fifteen minutes. Robbie then appeared upon the balcony. He announced that the music was excellent and invited them in. The rest of the evening was spent in dancing, and playing cards after which an excellent lunch was served and the party returned to their homes shortly after midnight.

Charlie Oh, Bob!

Another very musical evening was spent by the members of the C. U. C. on Thursday evening at the home of Mr. Ace Doler. Cow bells, discs and plow shares again rent the air for a considerable length of time after which the door opened and Mr. and Mrs. Doler appeared on the porch. The members were then invited in and Ace passed around the cigars. The party returned home after being promised a dance at Melvin schoolhouse in the near future.

Charlie is getting an electric headlight installed on his buggy as he was unable to see the corners and ditches.

Never mind Mike, one never has a car till he has a rattling good Ford, has he?

It was also reported that Eric had rather an exciting trip home. Was Lovers Lane too narrow for Eric?

S. Hartman's worked fine the other evening thanks to the mechanic that was on the job.

Some of the members went to Garfield dance of Friday evening. All reported having a fine time.

Say Alfred you don't know what you missed.

Remember the next meeting at the schoolhouse, Saturday, July the 14th at 2 p. m.

BOY WHO RISKED LIFE OVER NIAGARA DIES IN EDMONTON

Edmonton, July 7.—Leo Castle, the 18-year-old boy who won notoriety some months ago by creeping across the girders at Niagara Falls bridge to beat the immigration authorities and to get into the United States, met an untimely end here last night. He was detected stealing soft drinks from a delivery truck, and when chased by the driver ran along the river bank. Suddenly his footing gave away and he plunged into the swirling stream. No further trace was seen of him and dragging the river has failed to secure any trace of the body.

Leo Castle, an 18-year-old Alberta boy, last March risked his life when he walked over Niagara Falls on a narrow girder into the United States to avoid paying an 18 head tax. The daring feat accomplished by this intrepid young Alberta, had amazed and startled onlookers who watched the nervy crossing of the roaring Niagara. He was met on the U. S. side and taken back to the Canadian side.

GLORIA SWANSON A DANCER IN PICTURE

Gloria Swanson proves conclusively in her forthcoming Paramount picture, "Her Gilded Cage," that if she had not become a screen star she would have flamed almost as brilliantly on the boards as a dancer. She indicates this by appearing as a dancer in this picture, and her exhibition of the modern torch-pitcher art, is at once perfect, beautiful and original. She dances several times, and wears many striking costumes. The picture will be here next week and it doubtless will attract much attention.

UNIFORM GAME LAWS

Uniformity of the game laws of the four western provinces was discussed during the past week by representatives of all the governments at a conference held in Winnipeg.

Preserving Time

This is time for small fruit preserving. Fruit travelers tell us that Raspberries and Cherries will be about the lowest price about the 20th of this month. Strawberries are about over but can still be obtained.

Owing to the small fruits being so perishable we cannot carry much on hand, but we will be pleased to order any variety for you.

Please note that we have sealers in all sizes: pints, quarts, and half gallons in the Perfect seal, New Gem and Kerr makes. Heavy rubber rings at 10 cents per dozen are cheap and will keep your fruit in good shape.

FLOUR & FEED

We are expecting a mixed car of Royal Household flour, bran and shorts towards the end of the week. Feeds seem to be scarce, phone us your orders and we will reserve your quantities.
